Product Description

Sno-Way Revolution™ HD Series 2 Truck Snow Plow

The Revolution™ HD Series 2 Snow Plow is designed to provide maximum snow moving flexibility and capacity for 3/4 or larger. This 10 foot wide, 29 inch tall plow is designed to move more snow.

The patented fully controllable, independently moveable 13-1/2" wide wings allow you to make your Snow Plow a full open plow to a box end plow in a matter of seconds. While other “expandable” plows have wings that move out and forward 20 degrees, the Revolution HD allows the operator to move the independent hydraulic wings to tackle any difficult situation.

When you combine the fully hydraulic Snow Plow independent wings with the ability to also angle the plow, the operator will fit through the tightest areas while still capturing up to 6.1 cubic yards of snow.

The Down Pressure hydraulic system delivers an additional 250 pounds of down-force on the cutting edge with the push of a button.

Features:

- LED Thermosensitive heated Lights
 - Pro Control 2 Plus (controls plow & lights)
 - Upgraded Hydraulics Package
 - Outboard Mount Stand
 - Complete Fleet 2-Plug Connection System
 - ESS™ — Energy Smart System
-
