Product Description

Sno-Way 26 Series 2 Truck Snow Plow

Superior Plow Performance for half-ton trucks

Tough & Light: The 26 Series 2 has all of the same standard features as Sno-Way's commercial plow line without the extra weight: High-strength steel FlexForce™ frame construction, heavy-duty A-frame and an ultra-responsive hydraulic package.

The 26 inch tall blades are available in 6'8" and 7'6" lengths with custom drilled top rail designed to accept the patented EZ-Fit Snow Deflector. The high strength steel blade on the Sno-Way 26 series is kept looking good and slick with the Triple-Coat Protection; zinc phosphate wash, automotive E-Coat primer and military grade powder coat combination. The Triple-Coat Protection System delivers a surface that is resistant to penetration by salt, sand, stones or any other aggregate material.

With the optional Down Pressure® Hydraulic System, this plow will clean better and cut 30% of your plowing time. The Down Pressure Hydraulics add over 250 pounds of down-force on the cutting edge which is a first in the industry and scrapes clean forward and maximizes back dragging.

Common Truck Applications: 1/2 Ton: 1500 Avalanche, F-150, Ram 1500, 1500 Sierra, 1500 Silverado, 1500 Suburban, 1500 Yukon

Features:

- LED Thermosensitive Heated Lights
 - Pro Control 2 Plus (controls plow & lights)
 - Upgraded Hydraulics Package
 - Outboard Mount Stand
 - Complete Fleet 2-Plug Connection System
 - ESS™ — Energy Smart System
-
